

PERMIT APPLICATION

NY State Unified Solar Permit

Unified solar permitting is available statewide for eligible solar photovoltaic (PV) installations. Municipal authorities that adopt the unified permit streamline their process while providing consistent and thorough review of solar PV permitting applications and installations. Upon approval of this application and supporting documentation, the authority having jurisdiction (AHJ) will issue a building and/or electrical permit for the solar PV installation described herein.

PROJECT ELIGIBILITY FOR UNIFIED PERMITTING PROCESS

By submitting this application, the applicant attests that the proposed project meets the established eligibility criteria for the unified permitting process (subject to verification by the AHJ). The proposed solar PV system installation:

- Yes No 1. Has a rated DC capacity of 25 kW or less.
- Yes No 2. Is not subject to review by an Architectural or Historical Review Board. (If review has already been issued answer YES and attach a copy)
- Yes No 3. Does not need a zoning variance or special use permit. (If variance or permit has already been issued answer YES and attach a copy)
- Yes No 4. Is mounted on a permitted roof structure, on a legal accessory structure, or ground mounted on the applicant's property. If on a legal accessory structure, a diagram showing existing electrical connection to structure is attached.
- Yes No 5. The Solar Installation Contractor complies with all licensing and other requirements of the jurisdiction and the State.
- Yes No 6. If the structure is a sloped roof, solar panels are mounted parallel to the roof surface.

For solar PV systems not meeting these eligibility criteria, the applicant is not eligible for the Unified Solar Permit and must submit conventional permit applications. Permit applications may be downloaded here: VillageofBergen.com or obtained in person at Village of Bergen Office at 11 N Lake Ave. during business hours (8am – 4:30pm Monday through Friday).

SUBMITTAL INSTRUCTIONS

For projects meeting the eligibility criteria, this application and the following attachments will constitute the Unified Solar Permitting package.

- This application form, with all fields completed and bearing relevant signatures.
- Permitting fee of \$100.00, payable by cash, credit card, or checks made payable to Village of Bergen.
- Required Construction Documents for the solar PV system type being installed, including required attachments.

Completed permit applications can be submitted electronically to cgale@villageofbergen.com or in person at Village of Bergen Office at 11 N Lake Ave. during business hours (8am – 4:30pm Monday through Friday).

APPLICATION REVIEW TIMELINE

Permit determinations will be issued within thirty (30) calendar days upon receipt of complete and accurate applications. The municipality will provide feedback within fifteen (15) calendar days of receiving incomplete or inaccurate applications.

FOR FURTHER INFORMATION

Questions about this permitting process may be directed to Ken Kuter, Village of Bergen Code Enforcement Officer (585) 494-1513.

SUBMITTAL REQUIREMENTS SOLAR PV 25KW OR LESS (ATTACHMENTS)

NY State Unified Solar Permit

This information bulletin is published to guide applicants through the unified solar PV permitting process for solar photovoltaic (PV) projects 25 kW in size or smaller. This bulletin provides information about submittal requirements for plan review, required fees, and inspections.

Note: Language in [ALL CAPS] below indicates where local jurisdictions need to provide information specific to the jurisdiction. Language in italics indicates explanatory notes from the authors of this document that may be deleted from the distributed version.

PERMITS AND APPROVALS REQUIRED

The following permits are required to install a solar PV system with a nameplate DC power output of 25 kW or less:

- a) Unified Solar Permit
- b) BUILDING PERMIT (structural alteration, addition permits if applicable).
- c) Planning review IS required for solar PV installations of this size.

Fire Department approval IS NOT required for solar PV installations of this size.

SUBMITTAL REQUIREMENTS

In order to submit a complete permit application for a new solar PV system, the applicant must include:

- a) Completed Standard Permit Application form which includes confirmed eligibility for the Unified Solar Permitting process. This permit application form can be downloaded at VillageofBergen.com.
- b) Construction Documents, with listed attachments ARE AVAILABLE IN Understanding Solar PV Permitting and Inspecting in New York State AT BillageofBergen.com. Construction Documents must be by stamped and signed by a New York State Registered Architect or New York State Licensed Professional Engineer.

The Village of Bergen, through adopting the Unified Solar Permitting process, requires contractors to provide construction documents, such as the examples included in the Understanding Solar PV Permitting and Inspecting in New York State document. Should the applicant wish to submit Construction Documents in another format, ensure that the submittal includes the following information:

- Manufacturer/model number/quantity of solar PV modules and inverter(s).
- String configuration for solar PV array, clearly indicating the number of modules in series and strings in parallel (if applicable).
- Combiner boxes: Manufacturer, model number, NEMA rating.
- From array to the point of interconnection with existing (or new) electrical distribution equipment: identification of all raceways (conduit, boxes, fittings, etc.), conductors and cable assemblies, including size and type of raceways, conductors, and cable assemblies.
- Sizing and location of the EGC (equipment grounding conductor).
- Sizing and location of GEC (grounding electrode conductor, if applicable).
- Disconnecting means of both AC and DC including indication of voltage, ampere, and NEMA rating.
- Interconnection type/location (supply side or load side connection)
- For supply side connections only, indication that breaker or disconnect meets or exceeds available utility fault current rating kAIC (amps interrupting capacity in thousands).
- Ratings of service entrance conductors (size insulation type AL or CU), proposed service disconnect, and overcurrent protection device for new supply side connected solar PV system (reference NEC 230.82, 230.70).
- Rapid shutdown device location/method and relevant labeling.

c) (For Roof Mounted Systems) A roof plan showing roof layout, solar PV panels and the following fire safety items: approximate location of roof access point, location of code-compliant access pathways, code exemptions, solar PV system fire classification, and the locations of all required labels and markings.

d) Provide construction drawings with the following information:

- The type of roof covering and the number of roof coverings installed.
- Type of roof framing, size of members, and spacing.
- Weight of panels, support locations, and method of attachment.
- Framing plan and details for any work necessary to strengthen the existing roof structure.
- Site-specific structural calculations.

e) Where an approved racking system is used, provide documentation showing manufacturer of the racking system, maximum allowable weight the system can support, attachment method to roof or ground, and product evaluation information or structural design for the rack.

PLAN REVIEW

Permit applications can be submitted to Village of Bergen in person at 11 N Lake Ave. and electronically through: cgale@villageofbergen.com.

FEES

Village of Bergen Building Permit Fee Schedule

The Village will assess a \$100 fee for commencing work without a permit.

Sewer Permits

Connection Fee per unit \$150

Capital Facility Fee per unit \$1250

Sign Permits \$40

Signs without electric under 12 sq. ft.

Electric signs under 12 sq. ft.

Signs over 12.1 sq. ft. without electric

Electric signs over 12.1 sq. ft.

Demolition Permits

(included in Building Permit if applied for)

Residential \$100

Commercial \$150

Flood Plain Permit

Surcharge \$0

Fuel Burning Permits

Solid Fuel and Chimney \$30

Fireplace & Gas Inserts \$30

Accessory and related structures : Residential

Stand By Generator \$40

Gazebo \$40

Fence \$0

Deck 150 sq. ft. or smaller \$25

Deck 150 sq. ft. or larger \$40

Accessory Buildings

\$0.15 per sq. ft. Minimum \$30

Include Sheds, Buildings and Garages

Pool Permits

Above-ground under 19ft diameter \$50
Above-ground over 20 ft diameter \$75
In-ground under 19 ft diameter \$50
In-ground over 20 ft diameter \$75
Hot Tubs \$35

Village of Bergen Building Permit Fee Schedule

Change of Use Permits

Residential \$30
Commercial \$250

Structural Alteration Permits (w/o adding sq. ft.)

Residential \$100
Commercial \$200

Solar

NYS Unified Solar Permit \$100

**Additions, & Remodeling
(Including Structural Alterations)**

Residential \$100
Commercial up to 500 sq. ft. \$100
500-999 sq. ft. \$150
1000—1500 sq. ft. \$200
1500—1999 sq. ft. \$400
2,000 sq. ft. or larger (apply fees for new construction)
Commercial accessory building \$100

New One Family Dwelling Permits

\$0.15 per sq. ft. \$300 minimum

New Two Family Dwelling Permit

\$0.20 per sq. ft. \$300 minimum

New Multiple Dwelling Permit

\$0.20 per sq. ft. \$300 minimum
New Commercial Construction Permit
\$0.20 per sq. ft. \$500.minimum

Planning and Zoning Board

Short form SEQR \$20
Flood plain property surcharge \$0
Long form SEQR Actual cost
Variance \$300
Minor Subdivision \$200
Major Subdivision \$450
Site Plan Review \$200
Special Use Permit \$200
Public information meeting surcharge \$100
Recreation fee for new major subdivision \$100
(fee per parcel created)
Merger of Properties \$300 (per tax parcel created)

INSPECTIONS

Once all permits to construct the solar PV installation have been issued and the system has been installed, it must be inspected before final approval is granted for the solar PV system. On-site inspections can be scheduled by contacting Ken Kuter, Village of Bergen Code Enforcement Officer by telephone at (585) 494 1513 or electronically at retukk@aol.com.

Inspection requests received within business hours are typically scheduled for the next business day. If next business day is not available, inspection should happen within a five-day window.

In order to receive final approval, the following inspections are required:

ROUGH INSPECTION During a rough inspection, the applicant must demonstrate that the work in progress complies with relevant codes and standards. The purpose of the rough inspection is to allow the inspector to view aspects of the system that may be concealed once the system is complete, such as:

- Wiring concealed by new construction.
- Portions of the system that are contained in trenches or foundations that will be buried upon completion of the system.

It is the responsibility of the applicant to notify Ken Kuter, Village of Bergen Code Enforcement Officer by telephone at (585) 494 1513 or electronically at retukk@aol.com before the components are buried or concealed and to provide safe access (including necessary climbing and fall arrest equipment) to the inspector.

The inspector will attempt, if possible, to accommodate requests for rough inspections in a timely manner.

FINAL INSPECTION The applicant must contact Ken Kuter, Village of Bergen Code Enforcement Officer by telephone at (585) 494 1513 or electronically at retukk@aol.com when ready for a final inspection. During this inspection, the inspector will review the complete installation to ensure compliance with codes and standards, as well as confirming that the installation matches the records included with the permit application. The applicant must have ready, at the time of inspection, the following materials and make them available to the inspector:

- Copies of as-built drawings and equipment specifications, if different than the materials provided with the application.
- Photographs of key hard to access equipment, including;
 - Example of array attachment point and flashing/sealing methods used.
 - Opened rooftop enclosures, combiners, and junction boxes.
 - Bonding point with premises grounding electrode system.
 - Supply side connection tap method/device.
 - Module and microinverter/DC optimizer nameplates.
 - Microinverter/DC optimizer attachment.

The Village of Bergen has adopted a standardized inspection checklist, which can be found in the Understanding Solar PV Permitting and Inspecting in New York State document, found here: VillageofBergen.com.

The inspection checklist provides an overview of common points of inspection that the applicant should be prepared to show compliance. If not available, common checks include the following:

- Number of solar PV modules and model number match plans and specification sheets number match plans and specification sheets.
- Array conductors and components are installed in a neat and workman-like manner.
- Solar PV array is properly grounded.
- Electrical boxes and connections are suitable for environment.
- Array is fastened and sealed according to attachment detail.
- Conductor's ratings and sizes match plans.
- Appropriate signs are property constructed, installed and displayed, including the following:
 - Sign identifying PV power source system attributes at DC disconnect.
 - Sign identifying AC point of connection.
 - Rapid shutdown device meets applicable requirements of NEC 690.12.
- Equipment ratings are consistent with application and installed signs on the installation, including the following:
 - Inverter has a rating as high as max voltage on PV power source sign.
 - DC-side overcurrent circuit protection devices (OCPDs) are DC rated at least as high as max voltage on sign.
 - Inverter is rated for the site AC voltage supplied and shown on the AC point of connection sign.
 - OCPD connected to the AC output of the inverter is rated at least 125% of maximum current on sign and is no larger than the maximum OCPD on the inverter listing label.
 - Sum of the main OCPD and the inverter OCPD is rated for not more than 120% of the buss bar rating.

UNIFIED SOLAR PERMITTING RESOURCES

The jurisdiction has adopted the following documents from the New York Unified Solar Permit process: Delete any documents not adopted by the jurisdiction.

- Standard Application VillageofBergen.com
- Understanding Solar PV Permitting and Inspecting in New York State document, which includes sample construction documents, inspection checklist, design review checklist, and labelling guide VillageofBergen.com

DEPARTMENTAL CONTACT INFORMATION

For additional information regarding this permit process, please consult our departmental website at VillageofBergen.com or contact Ken Kuter, Village of Bergen Code Enforcement Officer by telephone at (585) 494 1513 or electronically at retukk@aol.com.
